|   | 10/700,179                          | JANSSEN, PETER G.                  |  |  |  |  |
| Office Action Summary   | Examiner                            | Art Unit                           |  |  |  |  |
|   | Gwendolyn Baxter                    | 3632                               |  |  |  |  |
| The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply  |                                     |                                    |  |  |  |  |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). |                                     |                                    |  |  |  |  |
| Status  |                                     |                                    |  |  |  |  |
| 1)⊠ Responsive to communication(s) filed on <u>24 May 2004</u> .  |                                     |                                    |  |  |  |  |
| 2a) This action is <b>FINAL</b> . 2b) This action is non-final.   |                                     |                                    |  |  |  |  |

Application/Control Number: 10/700,179

Art Unit: 3632

This is the second office action for serial number 09/700,179, Tool-free Hanging Device, filed on June 3, 2004. This application is a continuation of application serial number 10/268,189, filed October 10 2002, now patent 6,641,107.

## Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 38 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The dependency of independent claim 38 is based upon a cancelled claim; therefore, this clam is incomplete. For purposes of this Office Action, the dependency is based upon claim 37. Please clarify or confirm.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 31-36 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 1,445,372 to Wagner, hereinafter Wagner. The present invention reads on Wagner as follows: Wagner discloses a device comprising a push plate (8), a lance (5), and a hanger

Art Unit: 3632

(4,7). The push plate (8) has a front and back push plate surface. The front push plate surface and the back push plate surface oppose the front push plate surface. The lance (5) projects from the back push plate surface of the push plate. The lance has a barb (6) adjacent a distal end. The barb includes a barb surface (not numbered). The barb surface is substantially parallel to the back push plate surface. The hanger extends from the push plate and projecting from the front push plate surface of the push plate. The hanger is capable of receiving the object and bias the barb surface against the wall when the object is received (lines 30+). At least one of the push plate and the hanger is capable of receiving a rotational force that positions the hanger to receive the object. The push plate is circular. The hanger is a hook hanger. The device is constructed of metal (lines 85+). The front plate surface is configured to receive the pushing force from a finger. The lance is substantially perpendicular to the back push plate surface and the hanging device is inserted into the wall without using a mechanical tool. At least a portion of the hanger and the lance are substantially perpendicular to each other.

The method is inherent, since the method is predicated on the structure.

## Allowable Subject Matter

Claims 26-30, 37, 39 and 40 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: applicant has filed a terminal disclaimer thus overcoming the non-statutory double patenting rejection set forth in the first Office Action dated May 24, 2004. Claim 38 would be allowable

Art Unit: 3632

if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gwendolyn Baxter whose telephone number is 703-308-0702. The examiner can normally be reached on Monday-Wednesday, 8:00am -5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leslie A Braun can be reached on 703-308-2156. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
